

# DISHWASHING MADE EASY

**The VESTA Space-Saving Dishwasher:** A specialized dishwasher for the RV and Marine industries designed to clean glasses and dishware without wasting weight, water or space.

## VESTA™

### Maximum Performance. Minimum Consumption.

VESTA's new dishwasher uses no more than 2.74 gallons of water to get your dishes clean and sanitized. So, you'll not only be getting outstanding dishwashing results, but you will also be conserving a precious resource in your RV or boat - water.

### Handy capacity.

The VESTA dishwasher may be small in stature, but it offers outstanding load size capabilities. Equipped with a specially designed dish rack and cutlery basket, the VESTA dishwasher can handle up to four, 4-piece place settings.

### Easy to install.

VESTA's handy dishwasher can be placed on top of a counter or built-in to a cabinet. When placing it on a counter, the quick-connect kit connects the dishwasher directly to your kitchen faucet where it drains directly into the kitchen sink. VESTA's custom trim kit and built-in hose kit are available for those who prefer a more permanent, built-in installation.

### Kills Germs.

While VESTA offers the normal wash cycles you used to, it also features a unique sanitizing cycle. Cleaner and safer than hand washing, VESTA's Intensive cleaning cycle heats your dishes, glasses and cutlery to a germ-killing 156° F. When sanitizing isn't as important, VESTA's Rapid cycle lets you do dishes faster.

### Built tough.

The VESTA dishwasher not only offers the space, weight and water savings that are so important in RV's and boats, but they are built tough to withstand the rigors of the road and the sea. VESTA dishwashers are equipped with stainless steel interiors and reinforced cases for a long travelling life.

### Easy to use.

Load your dishes and set the controls with ease - VESTA's controls are redesigned with 5 handy wash cycles. The detergent and rinse aid dispensers are easy to fill. LED's clearly display cycle progress and the end-of-cycle signal lets you know when your dishes are done.

# VESTA Space-Saving Dishwasher

Your dishes, cleaned with less water in the least amount of space.

## DWV303DB
